**Subject**: FW: request to meet to discuss the risk evaluation for trichloroethylene

Tala/Mark –

As you may be aware, we are hoping to schedule a meeting with Yvette to discuss the SACC's recommendations on the TCE risk evaluation which are expected in the near future.

I have not received a response, and was hoping you could help.

Thanks,

Ms. Collazo-Reyes –

Congratulations on your appointment. No doubt you've got a lot going on, but I'm hoping that we can schedule a meeting to discuss the risk evaluation for TCE. As you are no doubt aware, the SACC report on the draft evaluation is expected in late May. Can we schedule a discussion for some time after you have received the report?

ACC primary concern is with EPA's treatment of the developmental toxicity of TCE. We would appreciate the opportunity to share our perspective and to discuss the SACC's recommendations on the issue.

Although we would much prefer to meet in person, I suspect that we should plan to meet virtually.
