Thanks, I attached the most recent version, as there is no reason for you to get oriented on something that may not reflect what you will review (I think this version has a number of revisions to the front matter that should help orient you to the document and which are not in the version I previously sent to you).

Enjoy!
Andrew

That would be terrific. I am sure your "first thing Monday" will occur before my "first thing Monday". Will look forward to the latest and greatest. ☺

Meantime I'm getting oriented to it all, but didn't think it would be useful to provide specific edits on an older version.

Hope you guys are surviving!! I do have chocolate to share as needed.

I will send it first thing Monday, as there may be some useful edits before then (the cancer d/r will still not be updated, but there will be a placeholder section, if you really want to take a look).

Thanks—I can't access that folder. Can you email the June 6 version to me? You can also send me the latest on Monday, if it will be updated before then. I have been hesitant to print it; if you have or will have a hardcopy, I'd be happy to borrow/reuse/recycle that as well.

I can wait for the cancer d-r, just let me know when it is ready. ☺

Sure. There is a June 6th version in the same place as before:

Ex. 6 Personal Privacy (PP)

The cancer dose-response section will be significantly revised over the next 4-5 days, so you might want to wait on that if you can.

Thank you,
Andrew

Hi Andrew!

Just checking for the latest version of the formaldehyde assessment for inputing review comments.
Thanks!
Kate
