Monthly Report
Issued Tuesday, May 2, 2016

(Presenting Progress from Preceding Month)

Refugio Incident

This monthly report addresses elements listed in the *Order for Removal, Mitigation or Prevention of a Substantial Threat of Oil Discharge.* The elements include descriptions of 1) anticipated problems and planned resolutions, 2) significant developments, 3) work performed, 4) treatment and disposal information, 5) analytical data received (if applicable), and 6) schedule of work. The following attachments contain detailed information pertaining to each listed element:

- **Summary of Anticipated Problems and Resolutions**
  - Safety of crews and monitoring personnel will require continued vigilance and contractor hazard awareness and pre-cautions.

- **Progress Updates** (March 9, 2016 through May 2, 2016) – On August 28th 2015, FOSC approved a variance in frequency from weekly to monthly reports.
  - Work Performed
    - Section 1 – All revegetation endpoints have been met. A memo was submitted by Stantec on behalf of Plains to the UC requesting the removal of all Section 1 Stormwater and Erosion Control Plan (SW/ECP) control measures (straw wattles and gravel bags). Currently these Best Management Practices (BMPs) are still in place.
    - Section 4 – The increased rainfalls and weekly invasive weed removal have yielded greater than 60% coverage of native plant species. The current coverage (Beginning of Year 1) is equal to the expected coverage rate for the end of 2017 (project endpoint is 60% native coverage). Previously trimmed native coyote sage brush is sprouting and other native plants are in bloom. Plants removed prior to excavation activities and stored at the local nursery should be replanted soon increasing the plant coverage percentage for Section 4 over the project endpoint.
    - Section 5 – One (1) trigger event was noted in Section 5 this month due to a storm event producing greater than 0.5" of rain in 24-hours. Vegetation has increased in the upper colluvium area and no notable observations were made regarding changes in geotechnical stability or oiling.
  - Disposal Information
    - No waste was generated during activities during this reporting period.

- **Incident Action Plan** (Effective October 29, 2015 0600 – December 31, 2016 0600)
  - Schedule of Work to be Performed (Form 204)

Summary of Anticipated Problems and Resolutions

Refugio Incident

Month of May 2016

Anticipated Problems	Planned Resolutions
☐ Potential safety for field crews. Potential for fatigue/complacency.	☐ Brief all contractors on the need to remain vigilant and to ensure that personnel are appropriately informed and trained regarding hazards.

1. Incident Name	2. Operational Period to be covered byIAP (Date/Time)	CG IAP COVER SHEET
Refugio Incident	From: 29 OCT 2015/06:00 To: 31 DEC 201□/06:00 Operations Period 23	

3. Approved byIncident Commander(s):

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: Refugio Incident	2. Operational Period:	Date From: 10/29/2015	Date To: 12/31/2016
		Time From: 06:00	Time To: 06:00

3. Objective(s):

1) Ensure the safety of response personnel and the public.
2) Continue Phase III Monitoring.
3) Continue Section 5 Monitoring.
4) Protect and minimize impacts to environmental, cultural, historic and economic resources where feasible.
5) Continue to care for and monitor the disposition of previously captured, injured and oiled wildlife.
6) Continue to provide stakeholders and the community relevant information about progress of response efforts.

4. Operational Period Command Emphasis:

1) Conduct Phase III Monitoring.
2) Continue to emphasize safety in all operations with an emphasis on Sections 4 and 5.
3) Maintain cultural/historical coordination for all operations and SCAT sign-offs.
4) Identify or list the segments requiring phase 3 monitoring.
5) Provide daily and weekly progress reports

General Situational Awareness

5. Site Safety Plan Required? Yes ☒ No ☐

ICS 207 **Prepared By:** Ryan Andersen (PSC) **Date/Time:** 28OCT2015/06:00

ASSIGNMENT LIST (ICS 204)

1. Incident Name:	2. Operational Period:	3.
Refugio Incident	Date From: 10/29/2015 Date To: 12/31/2016 Time From: 06:00 Time To: 06:00	Branch: Environmental Unit Division: SCAT Group: Staging Area:

4. Operations Personnel:	Name	Contact Number(s)
Operations Section Chief:	Lanny Kippes	562-221-4510
Branch Director:	EUL Mike Connel	805-331-1867
Division/Group Supervisor:	EUL Jennifer Gold	805-450-8695

5. Resources Assigned:

Resource Identifier	Leader	# of Persons	Contact (e.g., phone, pager, radio frequency, etc.)	Reporting Location, Special Equipment and Supplies, Remarks, Notes, Information
SCAT Group #1				
SCAT Group #2				

6. Work Assignments:

- SCAT Teams will conduct Phase III, post emergency response monitoring as directed by the Phase III Plan and keep all stakeholders informed of SCAT activities and findings. During SCAT sctivities, Operations cleanup crews should remain on standby to react and be deployed as necessary to recover Refugio Incident source oil (Line 901 oil). Phase III will focus on the areas from Arroyo Hondo to Rincon Point (Santa Barbara Division SB-I to SB-T) which have not met Phase I or Phase II end points.

- Operations can request a SCAT team if needed outside of scheduled surveys but they need to be given 24 hour notice. Phase III Monitoring team members will be comprised of representatives for the Unified Command (UC). Official SCAT team members must have the authority to represent the USCG, CDFW-OSPR, SB County, and RP when making clean up recommendations and signing off segments.

7. Special Instructions:

- Any oiled wildlife (birds, mammals, or sea turtles) observed or incidentally collected in cleanup operations should be called in to the Wildlife Hotline at 877-823-6926.

SAFETY MESSAGE

- All personnel are reminded to keep hydrated and take rest breaks at a 50/10 work/rest ratio.
- PPE: Hard hats, Tyvek suits, gloves, safety glass, neoprene boots. Avoid walking near waterways.
- PFD's must be worn if the potential for drowning exists.
- All response personnel are to be cautious of moving vehicles at all times and look in all directions before proceeding. Response personnel should be aware that all railroad tracks are in active use and should show extreme caution when operating in vicinity of tracks.
- Report All Injuries require immediate notification to Direct Supervisor.

HISTORICAL/CULTURAL GUIDELINES

- Leave cultural materials in place at the site of discovery, and mark its location.
- Stop clean-up work in the vicinity surrounding the site, within a 6ft radius.
- Immediately inform the field supervisor, who in turn, should immediately inform the FOSC and/or an appropriately designated cultural resource specialist. Obtain/provide location on map by indicating latitude/longitude.
- In the event a scheduled meal is not made available to your crew, report this immediately to your Branch Director and the Logistics Section Chief.
- No work in estuary or creek habitats without biological monitor and approval from EUL.

*** Weekly updates of SCAT activities will be reported to the Unified Command on a weekly basis. ***

*** If Line 901 Oil discharges or has the potential to discharge from the Section 5 Cliff Face into the water notifications must be made ti the National Response Center, Cal OES and Unified Command. ***
