Jay,

We are readying the history/architecture and the archaeology reports for the Gorge Dam Removal project and will send them to the OHPO and the consulting parties probably within the next couple of weeks. Would you like to be included as a consulting party and receive these materials for review as well?

Thank you!

Megan

Hi Jay!

Thank you for the response. We will notify you if we uncover native materials, sites, or features. If we hold a meeting or conference call for consulting parties at some point in the future, I will let you know.

I am glad that the SNI is pleased that the dam is being removed and I am wondering if that is because the removal will restore natural features in the Gorge. I'm interested in hearing your thoughts!

I hope all is well with you, and thank you again,

Megan

SNI-THPO is pleased to see that the Gorge Dam is being removed.

If OAC finds any native cultural materials/sites, please notify me.

Thanks
