Sickening

Play dough

The Oder persisted for most of the afternoon,
The smell lingers on your clothes
Heavy feeling in chest and nausea
Stagnant sulfur air
Annie Benn
Smell was strong enough to make my eyes water and iritate my nostrils.

Very strong odor. Headache inducing. Nauseating.

During our walk my throat felt like it was closing and eye irritation.
Early today
Eyes burning, throat burning and nose burning

Smells awful as it always does.

Gagging today

Terrible rotten egg smell
Burning
Horrible chemical smell, similar to peptobismol.

Had a bad headache at the base of my head after morning walk

Please stop, it is in my house.

Can't breath inside my house!!!

As bad as it has ever been at my house. Odor coming inside the house. Did not detect at 20:00; VERY bad at 23:30

Worst has ever been, entire house stinks all closed up. Woke me up, throwing up. Severe headache, dizzy, off balance, sinus, eyes swollen and burning. Going to ER, this has to end immediately until they fix!
Typical pulp mill odor

The smell is infiltrating the house. My house guests are having a difficult time breathing and have headaches. This is a terrible that we can not be protected these thses toxins.

Moderate smell of chemical and H2S, enough not to be able to sit outside. This just isn't fair, we should be able to enjoy our homes and yards. I don't trust NI they've showed time after time to just want to do the bare minimum without concern for the health, wellbeing and quality of life of all the surrounding citizens. I've been having sinus infections for months now. I don't know what all is in the air we are breathing, I just know its causing physical harm to us. Some of the elderly people in the area don't seem to notice it. I've seen them outside even when the smell is severe. Are they blowing up mold spores, bacteria or other things that are affecting us? They should have never been approved to operate a pulp paper mill which is so close to so many residences. The should be forced to do the right thing, not just band aid fixes, enough to get their permits approved. I hope DHEC protects us citizens. Left on their own, NI WILL NOT DO THE RIGHT THING!!!!!!!!.

light to moderate chemical odor mix outside. Burning nostrils, eyes, throat. Headache. Came inside immediately before irritation to lungs. Will need gas mask when I go to barn to feed.

It smelled heavy.
Odor results in severe migraine headaches and sinus problems

A smell I hadn't really smelled before, and musty is probably the closest smell to it. It was so strong around 1500 that I actually was talking and gagged midsentence.

I have a horrible headache and sinus pressure from this. Tried to go outside and felt like I was going to vomit. Can smell it some what in the house. It is hot outside so the air conditioning is running.

Took the dogs out for the night and the odor was very strong. Still strong odors persisted at 9am that morning.
Rotten egg smell, but mixed in with a heavy gasoline odor also.

Gross cannot sit outside. Sick to stomach
Very strong. Couldn't stay outside as a result.

Horrid

I have refrained from reporting over last 6 mos, hoping it was being dealt with. I am sick of being a prisoner in my home!!!! It is outrageous to be forced to stay inside, unable to sit outside my door!!
South wind 3 mph

Very strong smell outside and in my house, eyes burning, coughing.

Heavy thick stench. Can’t even sit outside
Burning smell in my nose and throat sitting outside, had to go inside

Nostrils burn.

Rotten egg odor hits you as soon as you go outside. I'm unable to use my screened in porch because of the odor
Smell wafting through the evening sir

The smell is coming in the house through doors, vents, window panes... Its an 8 out of 10.

7/8/2021

A rotten egg mixed with chemical smell caused us to start coughing
The smell started at around 7:30pm. It is now 9:45 pm and the oder is coming into our house. New indy is poison thousands of people.

7/9/2021

Rotten hot cardboard and sulfur

Odor smells like rotten eggs mixed with bleach or ammonia and it is stronger than it has been previously
the smell was chemical based rotten eggs smell
Crap smell with a mix of chemicals. Did New Indy start that?

Again, the odor is so severe that it permeated the inside of our home in addition to us not being able to sit outside.

Permeated into my sealed house. Windows and doors are all closed. Air conditioning is on.

I woke up not feeling well.. we are smelling this h2S for days now and my sinus is bother me and the infection is making my teeth sensitive now... I have a mild headache. I REALLY miss the days when I could go outside whenever I want to, accept friends invitations without having to track the wind direction, being able to see my fireplace which is now covered in plastic to keep the smell out, being able to go to bed without having to worry about closing bathroom doors, lay towels in front of the doors, turn on bathroom fans, moving our brand new expensive air purifier around the house to try to be able to at least enjoy our indoors, being able to drink my coffee outside, being able to breathe fresh air, not having to worry all the time. ... Waited all these years to retire and now can't even enjoy it. This just isn't fair to all the residents in our area.

WIND SW 4 INSTANT HEADACHE!

It is now 8:30 and this poisonous odor has been here since before 6:09 am and is permeating the house with its stench. I have a headache and sore throat and raspy voice. Seven days a week this obnoxious stench of rotten egg and sewage continues to make all of us sick from the H2S. Make the New Indy Plant fix their outdated equipment and get them into compliance. They are just basically thumbing their nose at all of us because DHEC AND EPA isn't doing anything.

There's a slight breeze. A rancid, pungent smell has lingered since 0800am through this 1700 pm report. We can smell it outdoors, inside the house and inside the car.

Could not stay outside

7/17/2021

5 mph sw. AGAIN
Southwest wind, smell bad

This is a joke I've 20 miles away and can't go out and enjoy my yard the smell is making my head hurt.
This is ABSOLUTELY RIDICULOUS!! Why do we have to live with these toxins??

The smell has been starting in the evenings around 5pm or so and it gradually gets worse the last several days. On the the 17th it was horrible and very potent in my area at 10pmish.
We were going to grill dinner, but can't now.
Odor in home.

Another evening I am being forced back inside because of the smell. Is this ever going to stop???
Light breeze with hazy sunshine
I couldn't sit on my patio. Could eat dinner outside

Very overcast and no breeze
A very thick musty smell. Nauseating

All day severe

Strong odor immediately upon opening garage door
A lot
The odor is inside my house

Do something!

Headache
Sickening!

Sickening

I have submitted this form countless times and it feels like nothing is being done about it. This is a quality of life issue, New Indy is prohibiting me from breathing clean air. I've seen lawsuits recently targeting states and government, accusing them of stripping people of their right to clean air. maybe that's the next step

Stink

rotten eggs with a cleaner smell; eating dinner and we all had to go inside

Sweet sickly smell
Headache
Yesterday

The odor was very strong earlier tonight and after being on my porch for ten minutes I began getting a sore throat.
By far the worst it has been yet
A combined smell of chemical and rotting material
House is smelling to.
Can smell it inside the house.
Permeating the house again with all windows and doors closed. Smell has recently began to come out of pipes when water is turned on in kitchen/bathrooms.

Causing sinus to burn when breathing outside

Sickening

Ammonia
Nostrils burning as soon as got home and opened car door could detect
Really bad
The smell is strong enough that it's inside our home
So intense, it made going outside unbearable

I wanted to grill and enjoy my weekend but the smell was so sickening and putrid I couldn't. I'm considering moving out of Lancaster county because of this... If I can even sell my house. Who would want to live here now?

First breath outdoors, smelled so bad I went back in the house!
Odor is dense and overpowering
This smell is awful. It is harming my patio business. People cannot be outside in this..

The smell is strong it made my eyes water and my throat sore. I was outside for 20 or so minutes doing yard work and had to go inside. It smells like rotten eggs with almost a fertilizer mix
Paper mill odor
Sickening

Absolutely offensive! I went out to bring my trash to the curb and could not move fast enough to get inside!

Really awful smell. Cannot keep door or windows open.

9-Jul

Got out of the car and the smell hit you hard.

It's very distinct and it is immediately noticed when opening ones front door

Mix of rotten eggs/ rotten garbage

Last email was yesterday! This is happening everyday!

The air is still.

Smells like chemical, rotten eggs, sewage but is so strong it burns your eyes and nose and throat.

Normally not bad here since it settles elsewhere in the neighborhood, but was much much worse than usual

This is the worst the smell has been. It's seeping into my home. This is not ok and I feel like no one cares or is going to help us.

Odor seeped into house, bad headache!

Smell was atrocious, you know it's toxic, you know it's harmful to our health, nauseating, pounding headache, it's just plain criminal

Several emails don't know dates

Stinging, heavy, abundant

Smell outside is severe and moderately starting to enter our home

Drove me inside

Awful, so I came inside.

Several days in a row and worse on the weekends

the smell is rotten and is now getting into my garage and sunroom

I've been submitting these for months and THIS is the WORST I've ever smelled.

Hard to breathe, and causing burning of the eyes from the smell

4 ssw. Stinks AGAIN

Severe smell. It has been really bad the last couple of days

HORRIBLE PLEASE STOP THIS!

Order had stopped for a short period of time. Now it is back.

Smell bad to the point of making me nauseous

Very potent both inside and outside

Very potent smell. Immediately after walking outside my eyes started burning followed by nose and throat.

Headache, cough, burning eyes

The past few days I've had a headache and felt like vomiting. New Indy is going to be responsible for the death of people and the state of SC is doing nothing. Who's getting paid off. McDummy (yes, I'm a Republican) is worthless. Please do something.

The smell was a mix of chemicals and rotten eggs.
Very uncomfortable
Smells like a paper mill. I lived in Jacksonville FL in the late 80s and I would recognize that stench anywhere. It's noxious.

Throat burning
Burning eyes, nose and throat, heart palpitations
Typical rotting paper plant smells making our yard unusable.
Eyes and throat burning, nausea

Eyes burning
Everyday same lately

this is getting to be totally unbearable. I literally can't breathe. I always leave this section blank but I'm at my limits with this nightmare. Can't sell the house and can't breathe inside or outside. When the hell is anyone going to do something. Shut them down, fix the issues and reopen or just shut them down. The jobs are not more important than OUR HEALTH.

All day today it smelled rotten . Still going on at 10:00 pm
I have complained about this many times
Today's smell was a tad different- it's usually cabbage/garbage dump/hot dogs/feces mixed together- today it lacked the smell of hotdogs.
Very pungent
Very obvious stench.
Wet, rotten cardboard
Rotten egg smell continues to torment myself, family and neighbors. Causing eye burning, throat irritation, headaches and nausea.
Again, it's just ridiculous! Rotten egg smell continues to torment myself, family and neighbors. Causing eye burning, throat irritation, headaches and nausea.
Nauseating smell

Hard to breathe outside
Same smell we always smell which is the dirty diaper/sewage smell.
Too strong of a smell to be able to sit outside

Same pungent odor as always. The odor that you know is entoxicating all of us but DHEC fails to admit.
Pungent chemical and rotten eggs smell. The New Indy ODOR!

Rotten odor- pungent and chemical/rotten eggs odor. The one that DHEC allows New Indy to continue releasing into the air without regards of what is doing to the health of our communities!

It smells horrible inside our house as well as outside. We were woken up, coughing, eyes burning and headache.
The Toxic odors that the EPA has said pose imminent danger was again on our property and causing entire household to have irritated eyes and headaches.
Smell was very strong today.
Sickening
Very strong smell

Smells like a paper mill
Sickening really bad all day long

Sickening
Help us!!!!!!

Woke me from sleep, really strong. UNHEALTHY!
The stench smelled like garbage rotting in the sun. We ended our pool time early due to the smell that made us sick to our stomach.

I went outside to let the dogs out and I felt as if I had been smacked in the face with a load of feces. I immediately told my daughter to go inside so she didn't inhale the toxic smell. I quickly shooed the dogs inside (once they did their business)This stench is unbearable and instantly make you nauseous.

Was awaken from our sleep with smell. Very nauseous with headache

Terrible
Light rain, no breeze, strong smell resulting in headaches

It stinks. Disgusting. Enough already
Egg and chemical smell

It was so bad I could not take a deep breath
Dense, disgusting smell that makes your stomach sick

Chemical smog hanging over Van Wyck; could not finish my run it was so severe

Intense smell that forces my family to stay indoors and not able to enjoy the pool during a much deserved summer break

Today was the most I have noticed the small in a few days

It gives me a headache.

My throat starts to close and I get nauseous. My husband got an instant headache and started vomiting.

I started coughing, spouse became nauseous and had to lie down

Sickening. Could not go outside. Made my family have headaches

As always, my throat closes and I get nauseous. This time I also threw up.

Smelled it all day. Has continued to worsen

This is causing allergies to my daughter

Not the best thing to think about.

Horrible. Could not step outside

It now smells inside the house that has had closed windows and doors all day. It is sickening and affecting our well-being

Lite breeze, penetrates my house and lingers also, nakes me nauseous and serms to happen multiple times i er the week

POISONOUS GAS!!!!!!!!!!

Strong odor

Really do not know how to describe the smell other than is smells like it does on I95 near the paperplant in GA years ago

Yes, submitted a million times.

Putrid smell, strong rotten eggs. Gave me an instant headache

Stronger than usual.

The smell has been increasing in this area a lot lately. For the 1st time ever I actually got ill (more than just a headache),

It has smelled all weekend.

Some kind of terrible chemical like smell that's gives me a headache if I'm outside.

ER visit required got dizzy fell hit my head!!

Cross between sulphur & burning dog poop.

Sort of like moth balls

Strong rotten egg smell

The smell is strong even in our home.

I woke up and smelled it in my bedroom and then even stronger downstairs. I opened my back door and the smell was h

Rotten eggs, chemicals, and rotten garbage smell in my house. I almost threw up!

My 7yo had another nose bleed two days after his last out of no where

My eyes burned the whole day
Sour or acidic tones, very thick feeling and hard to take a whole breath without throwing up.
Foul smell - musty, thick, rotten odor
This is happening multiple times per day/week that we cannot go out or let our dogs out bc of the odor

I can't live like this anymore
My mom can't even go outside it's so bad for her. This needs to stop
It was so bad my eyes were burning and my throat hurt
My wife and daughter in law are getting actually sick from the smell

Raunchy sweet smell like trying to mask odor. I went outside for something and immediately had to hold my breath and

Smelly

Gross. Had to go back in the house.

Airways closed, constantly using inhaler. Coughing, choking. I have asthma. This is killing me!

When are you worthless pieces of shit going to do something meaningful? DHEC is Joke. You people are sick disgusting

Powerful chemical smell makes you dizzy
FU

FU

FU
I am getting sick and tired of reporting with no action from regulatory agencies
Seeped into the house, woke us up, headache, burning eyes, sore throat
Smell is continuing to seep into the house, burning eyes, burning throat, clogged throat, headache
Can't remember when the last email was sent
I smell rotten egg, the air feels heavy and my throat feels tight and irritated

Chemical
Chemical and sulfur

sickening and we are beyond fed up that nothing is being done!!
Musty but with a sharp pungent chemical odor

Like being hit in the head with a ton of bricks
Very strong odor, made it difficult to breath as we retried to go to sleep
Hard to describe but smells like a chemical/gas. Smell seems stronger on hot days

Uncomfortable smell; makes it very hard to sit or play outside.

Started to get a headache the smell was so bad

TERRIBLE TOXIC ODOR, can't go outside. It's causing serious health issues. Headaches, breathing and nasal problems.

Stop poisoning us it’s disgusting

Nose sores

Light breeze. So disappointing after 2 lovely days with no odor, it's back

Cannot go relax outside because of very foul odor!!!

Partly to mostly cloudy.

Very strong cannot sit outside

Causing sinus headaches

DEADLY EMISSIONS FROM NEW INDY!!!!

Smells like rotten eggs with disinfectant to cover the smells

Hydrogen sulfide mixed with some chemical. There is a visible smog covering the Indian Land area.

DEADLY EMISSIONS FROM NEW INDY!!!

Odor strong on why 5. Moderate at. House

Overwhelming affecting eyes, nose, throat. Made me sick to stomach.

The smell hit me like a ton of bricks. It smelled of rotten sewage. I instantly became nauseous.

Very strong smell today. I've reported in the past. I'll report every time I smell something.

Smells like sh*t

It’s been hours still stinks. Headache and my throat burns. Thank you.

It’s smells again- I literally got a massive headache as soon as I walked outside.

I couldn’t even go outside to use my yard the smell is overwhelming! This is unfair to have to live like this!

It’s smells so bad! I can’t even go out with my friends without feeling like I can’t breathe

I was sitting in yard and the smell became unbearable! My throat and eyes are burning and I can’t stop coughing.

Chemical sulfur smell

My wife and her mother are sick from being outside today.

Hanging around for days
