Discharge Monitoring Report - Platforms Gina, Gilda and Edith
NPDES Permit No. CAG280000

Dear Ms. Sandra Chew, Ms. Dettmer, Mr. Rance Wall and Ms. Zaleski

This letter and its attachments constitute the above captioned Discharge Monitoring Reports (DMR) for the third quarter – Sep thru Nov, 2017.

Attachments:
- Cover Letter

Dilution: The following are the dilutions ratios,

- Gina: NA
- Gilda: 1607 : 1
- Edith: 4654 : 1

Notes:
- Some of the Oil and Grease results are less than PQL (5mg/L) and, therefore, they were reported as ND or BQL in the original lab reports. However, for the sake of monthly average, we obtained the calculated data from the lab and reported accordingly.
- On 9/18/2017, Platform Gina went overboard (from approximately 6:00AM to 01:00PM) with its produced water only for collecting samples for constituents as outlined in Appendix D-Reasonable Potential (Table D-1). Total discharge was 48 barrels.

Produced Water (002):

- Produced water was discharged throughout this reporting quarter for Platform Gilda and Edith. As reported earlier, Platform Gina has not been discharging its produced water overboard since 7/22/2017. As and when it does, it would be reported in the NetDMRs.
- Annual Cumulative(12/1/2016 thru 11/30/2017):
    1. Gina: 291,185 Barrels
    2. Gilda: 2,206,293 Barrels
    3. Edith: 215,085 Barrels

I certify under penalty of law that this document and all attachments are prepared by me or under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete.
