CA Aquifer Exemption Request: Water Division and ORC met with CA Division of Oil and Gas and State/Regional Water Board representatives on March 8 to discuss the state's request for EPA to approve an expansion of the existing aquifer exemption in the Arroyo Grande oil field in San Luis Obispo County. While the discussion was productive, there are a number of unresolved issues with the submittal and we are scheduling a follow-up meeting in the next week or two to continue our discussion with the state. The Arroyo Grande request is the first of dozens of such requests we expect to receive in advance of the agreed-upon February 2017 shut-in date for Class II wells injecting into non-exempt aquifers. (Albright, 2-3971)
