Hi Jim,

I'm sorry to not get back with you sooner. If it fits your schedule, perhaps we can schedule a call sometime next week. I will probably bring some others into the conversation. Unfortunately, my staff engineer who would be most useful in discussing cyclic steam well issues and communications with DOGGR about this type of well is still out on extended family leave. Not knowing when he will return to the office, I think it makes sense for us to continue the dialogue and cover as much territory as we can.

Regards,

David

David … Didn't hear back on this. I'd like to follow up with you when you have some time.

Thank you,

Jim Sweeney

David … When you have a few minutes, I'd like to set up a time to follow-up on those questions you wanted to run by your attorneys and other staff.

Thanks,

Jim Sweeney
