Subject: RE: Aquifer exemption checklist

Michelle,

What is your opinion if we get these aquifer exemption application submitted next year by March 2015? The consultant who is currently working with DOGGR aquifer exemption informed me that they are not available to take in this project until after January 2015.

Subject: RE: Aquifer exemption checklist

Hi Sonnie,

Just to clarify, this is an informal transmittal of the checklist so you can get familiar with the information required. EPA will provide a formal communication letter with any remaining comments on your application, with the request to update information on the status of USDWs as part of that.

Michele

Got it. I will work with our group to get the data required for submittal.

Thanks,

Sonnie T. Pineda

Dear Sonnie,

As we discussed last week, attached for your information are the EPA checklist and criteria regarding aquifer exemptions. We are going to update our review of your renewal application and provide any remaining technical comments. One of our comments will be to revise the section on USDWs in Attachment D. As a heads up you will want to provide the information requested on the checklist. Please feel free to contact me with any questions.

Sincerely,

Michele
