I found what I think they are referring to. I am having them scanned and will send along.

Thanks Michele. I can dig up these documents but I want to be sure they are the same documents that you have, that are in the official record. I note that there were instances where we had 2 versions of the same document and I'd like to only pass on those that are copies of the official record.

Hi Jerry,

I can take a look in our files for these-- what do you have for these documents? Don't you also have copies of these letters with your primacy files, these are letters from DOGGR to EPA. I don't think these are aquifer exemption documents, it states they are part of the 1425 demonstration.

Unfortunately for all of us, those that wrote the MOA did not use exact citations for dates, so there may be multiple items within those months. I'll see what I can find, and enlist George to help if needed. As the PO he may be familiar with these letters.

Regards, Michele

Hello Michele,

Our State Water Board is looking into our Primacy document and the MOA with the EPA and they are requesting a copy of the documents as described below in the MOA signature page, and attached above.

"additional information provided by letter dated March, 1982" and the "clarifying information provided by letter dated September 1982"

I would like to request a copy of these documents to be sure these are the documents that you have on file. Thanks.

Jerry
