Fruitland Magnesium Fire
Re-occupancy Determination Process 7/3/16

1. Indoor Data Summary Sheet document prepared which includes indoor air and micro-vac data.

2. Outdoor ACAT sign-off document completed.

3. Indoor Data summary Sheet and Outdoor ACAT documents routed to UC for approval.
   -EPA and LACoFire sign routing sheet to approve.

4. Electronic copies of Indoor Data summary Sheet and Outdoor ACAT documents routed to PHO for approval.
   -PHO makes re-occupancy determination and directs DPH IC/DIC to sign routing sheet to approve.

5. UC-approved Re-occupancy Package (signed routing sheet, indoor and outdoor documents) returned to EPA START.

6. EPA START makes a copy of the UC-approved Re-occupancy Package and routes the package to Community Involvement.

7. Community Involvement conducts a walk-thru with returning residents and the resident/owner signs-the ACAT document.

8. Community Involvement returns the Re-occupancy Package to EPA START.

9. EPA START makes a copy of the Re-occupancy Package and routes the original documents package to the Documentation Unit.
