Inspection Summary
r failure to implement SWPPP, failure to maintain BMPs resulting in sediment discarges into Lake Tahoe, and effluent anc
and no industrial activiy and material were noted as viewing from the gate. The gate was locked. Two UPS delivery noti
ıpling location does not incorporate area where truck drivers sweep out trailers onto the ground. Houskeeping could be i
t the Palmyrita address. The facility needs to submit a NOT for the site. A new company K&N Filters/Eng. has moved intc
m pad directed to storm drain pond system. This system also collects and treats winery wastewater during the crush. Post
ıing. Hazardous materials drop off section clean and well organized. Shrouds over loading docks. Dumpsters clean and shc
