Thanks for the chance to look this over. A few edits/questions/comments in the attached. As I am going Ex. 6 - Personal Privacy I am going ahead and sending this to you, and also copying OGC's Karen Bennett (and including the various documents reviewed and cited for her) and letting her know this is being drafted in the event she wants to also look this over before it goes out (I suspect she will!). I'd normally coordinate with Karen before sending to the comments to you, but I know you are anxious to send these so I want to keep the process moving Ex. 6 - Personal Privacy

Thanks,

Tim

Just to clarify/confirm, the comments you have drafted are regarding the following language from the attached document(s), if your draft comments are on other language, can you let me know what that is?

Thanks

Sara

Hi Sara,

As we discussed just a bit ago, I have attached our latest version (#5) of draft general conformity comments related to two sections of the BLM's preliminary DEIS for the NPL project in Wyoming's UGRB 8-hour ozone nonattainment area.

It would help us much if you could give a short review to just draft comment number 1 in the document (see language as in blue) as it relates to drill rig engines. We drew upon much of the information that Region 8 provided previously to Jeremy Nichols, on his issue of permitting drill rig engines in Colorado, from our letter of June 2, 2009 (please see the attached .pdf file).

Thanks much for your help!

Tim
