All,

Here is a reformatted version of the SOW we discussed yesterday. I reformatted it to show Steven Daugherty's changes made on Jan 23, as well as our changes made after the call yesterday. These show up as "Bob Pallarino" edits. Finally, Steve Linder added some Talking Points comments. They are not always visible when looking at the document on a computer screen, you have to hover over his comment and click it to expand the comment box. I believe that if you print the document you should see all of the talking points. Also, the last page has some overall talking points.

Let me know if you have any questions.
