**Subject**: URGENT: Please review response letter to BWS May 19, 2016 letter
**Attachments**: EPA DOH Response to BWS May 19, 2016 Letter.docx

**Importance**: High

BWS sent a letter on Friday night 5/20 stating that they need more time to review the Section 6 & 7 scope of work and the Monitoring Well Installation Plan. Here is a response I wrote this morning that should go out by COB today. I am sending this first draft to everyone for review and comment so the final version might be a little different. I think it is important that Ernie receive a reply ASAP because while I state in the response that they can have until June 3, 2016 to comment on the Section 6&7 SOW, they need to get any comments on the Monitoring well installation plan to us by COB tomorrow. I want us to be able to send our letter on the monitoring wells to the Navy by COB Wednesday 5/25 if possible.

Bob
