Subject: FW: Review of Red Hill Derivative Deliverables
Attachments: Sep 17 Derivative Deliverable Review.docx; RBW Comments on Red Hill Monitoring Well Installation Plan Addendum 02 25 August 2017.doc

Attached are comments from Ron Chinn at Innovex and Bob Whittier. Ron reviewed the Monitoring Well Installation Workplan Addendum 2, the CSM Development Plan, the Natural Attenuation Plan, and the Sampling and Analysis Plan Addendum. Bob's specific comments are on the Monitoring Well Installation Work Plan, but he also has some general comments on the other deliverables, which he had not seen when he wrote his comments.

Let me know if you have any other issues or comments ASAP but no later than the end of week. Focus should be on the MWIWP and Sampling and Analysis Plan Addendum since they are the ones to be put in practice the soonest. I will compile all comments in a letter to be sent to the Navy.

Subject: Review of Derivative Deliverables

Hi Bob –

I'm sorry this took so long to get to you…and I admit I didn't do as good of a job writing it up as I probably should have. I took a lot of notes when reviewing these documents, but in retrospect many of them were too small to even mention. I'm happy to talk this through with you if you need any clarification.

Thanks,
--Ron
