Lyndsey and Steve, Please see attached revised version of our slide deck. We removed some items and adjusted wording to address your comments and change the tone of the presentation. We also added two citations to DOH documents delivered to the Navy that raised these technical concerns in July, 2019 and March, 2020.

It is our hope that this presentation, combined with Matt's impressive work to move forward with the Navy meeting in the near future, perhaps even next week.
