Subject: RE: Acetamiprid Proposed Mitigation Discussion
Attachments: EPA-HQ-OPP-2012-0329-0026.pdf

Good morning all,

Thank you to those who were able to make it to today's meeting. BEAD provided helpful feedback on the proposed acetamiprid mitigation. I am still updating the mitigation proposal following suggestions form BEAD and the label review board. Meanwhile, here are some notes/responses and tasks for moving forward that came out of the meeting today.

Deliberative Process / Ex. 5

I am also attaching the RQs for aquatic inverts disaggregated by use site, as requested. BEAD indicated that it would like to develop benefits language to address some of the highest risk sites. **DO NOT CITE OR DISTRIBUTE** the chronic numbers (chronic numbers are shaded; see Table 4 below), which have not been finalized by EFED.

Deliberative Process / Ex. 5

to learn more about, but I am disinclined to ask him to do that for now. Let me know if BEAD would like him to run some numbers. The aggregated bee RQs are below (Table 3).

BEAD said that it would provide the document on seed palettization for the other neonics to PRD.

Finally, after conversations with PRD management, we were able to move the PID signature date to July, 2019. As discussed in the meeting, PRD will continue to write as much as possible and will circulate as complete as possible a document to the divisions for June. Final review and signature will include contributions from BEAD.

Best,
Jon

Subject: Acetamiprid Proposed Mitigation Discussion
When: Wednesday, May 15, 2019 9:00 AM-10:00 AM (UTC-05:00) Eastern Time (US & Canada).
Where: DCRoomPYS9100/Potomac-Yard-One

I have attached PRD's proposed mitigation plan for acetamiprid. At peer review on Monday, we were not able to complete the review of this plan, but this meeting is still worth our time. Please note: though the plan includes a requirement for vegetative filter strips, we have diced not to include it in our final decision.

Best,
Jon

Hello,

This is placeholder for a meeting to present the proposed mitigation for acetamiprid to BEAD. I will circulate the proposal following PRD peer review, which will occur on Monday, May 13.

Conference Line/Code / Ex. 6

Thank you,
Jon
