Greg,

I had to fact check one remaining statement with EFED prior to sending the attached version of the desk statement. It should be ready for Billy and Elissa's review once you're ok with it.

Many thanks,
Dana

Let me know your thoughts on this. Brought the bee content to the fore. I suspect it needs more work and made comments to that effect.

Hi Greg,

I think that the main risk concern stakeholders are interested in hearing about, pollinators, isn't coming through in the main body of the desk statement. Do you have a few minutes to discuss today? I think PRD is also waiting to review the web updates for the neonic roll-out.

Thanks,
Dana

Hi Dana (and Elissa and Billy),

I've attached my revisions to the neonics comms materials. Please review and let me know your thoughts on whether this is ready for Elissa and Billy. If it isn't, let's discuss your concerns and you and I will work together to get it right. I've attached clean and track changes versions.

Hopefully Rick will be successful in arguing for a reprieve on the new announcement date.

Best,

Quentin, Liz,

Attached are my comments on the most recent draft, including some factual liberties and stylistic elements in need of further review and revision by FEAD prior to the draft being ready for PRD IO concurrence (the IO having had the opportunity to review my attached feedback, and agreeing on this path forward). Elissa and Billy are out of the office for the Thanksgiving holiday after today, so an expedited revision would be needed in any attempt to make your desired timing.

Please let me know if you have any questions.

Regards,
Dana

Hi again.

After reconsidering the various issues **Ex. 5 Deliberative Process (DP)**

Deliberative Process / Ex. 5

Please keep in mind (and convey to your IO) this is public relations, and that the target audience is mostly not very well informed reporters.

The attached draft incorporates comments from Meredith Laws and Tom Steeger as well as information on acetamiprid from Jon. Meredith had a question about discouraging homeowner use in Q7. The simple resolution there would be to delete that bullet.

I have to turn this in by COB Wednesday, so please get the PRD IO concurrence to me by COB tomorrow.

Thanks,

Hi Quentin,

Thanks for the opportunity to review. We tried to focus our comments on the factual information, but felt that some of it needed to be rewritten to make sure to convey the appropriate info to the public. Let us know if you have questions, and we look forward to seeing the next version once the res of the team has a chance to weigh in.

Thanks!
Marianne

Thanks for taking the time to meet today and for being receptive to the idea of trying something different on neonic comms.

Once I get your preliminary comments back, I'll run the desk statement by EFED, RD and BEAD, then we'll send the final draft to you and the rest of the team for DD concurrence.

Thanks,

Quentin Borges-Silva
