Salient for this week!

VADEQ and AMS Receive Community-Scale Air Toxics Ambient Monitoring Grant in Region 3
Virginia Department of Environmental Quality (VADEQ) and the City of Philadelphia's Air Management Services (AMS) received the award for the Community-Scale Air Toxics Ambient Monitoring (CSATAM) grant in Region 3. The CSATAM grant provides funding for air toxics monitoring projects to help state, local and tribal air agencies conduct air quality monitoring projects to address localized air toxics issues. VADEQ received $526,603 in funding for a project related to characterizing the ambient concentrations of air toxics metals and perform corresponding air quality and health risk assessments for two Tidewater communities: the Lambert's Point Community (LP) and Southeast community (SE) located in Norfolk and Newport News, respectively. AMS received $352,208 in funding on a project related to assessing the degree and extent to which air toxics from various sources, including a major oil refinery and other air toxics sources, impact the immediate community in the City of Philadelphia. For more information, visit https://www.epa.gov/grants/community-scale-air-toxics-ambient-monitoring-closed-announcement-fy-2020 . **Contact**: AJ McCullough, 215-814-2093.

Subject: Request: Salients for the Week Ending November 13th Due COB Friday

Please send all salient issues for the week ending November 13th to **me** by **COB Friday, November 6th**.

Any salients received after Friday will be slated for the following week's salient report.

If you have any questions or need assistance, please don't hesitate to reach out to us so we can assist.

Please also provide information on any documents that will be going up to the Front Office between November 11th- 13th for signature. We will need the title and a one-sentence description of what the document is.

A friendly reminder that all salients should make clear the connection to EPA's mission, and if possible, the connection to Region 3. I am happy to assist in writing this language.

Thank you!
