Great! Did you happen to mention to him that what we found was reportable quantities and he should also formally notify MassDEP? Not really our job to tell him that; he should know…

Subject: Titliest

FYI - Just a quick note saying that I spoke with Keven Kelly at the Acushnet Company this afternoon. He was extremely cooperative, granted permission for us to share our soil/sediment analytical results from their property with AVX and also had a few questions about our analytical results which I intend to share with you in a follow up email.

In addition, he said that he met with AVX after reviewing the Phase III report and indicated to AVX that they preferred alternative OU1-3 which would get the property to not needing an AUL restriction. Kevin said that their counsel was preparing a letter to MassDEP indicating their preference but that he was now going to contact the counsel to send that letter out as I told him we were going to meet with MassDEP and AVX next week to discuss the Phase III report [and that I wanted to be able to provide the Titliest data to AVX prior to that meeting].

I'll forward the data and figure to Marilyn and Angela.
