This call will provide information in response to two questions from Complainants:

1. Debra McGee will share additional information relating to ECRCO's selection of the two comparator landfills, Eastern Area and Pineview, that were described in the closure letter. In particular, we are interested in understanding the selection criteria used to identify these two comparator landfills and whether these two landfills were the only ones that met EPA's criteria. If not, we would like to understand which other landfills were identified, and why or why not any other landfills were used for comparative purposes.

2. EPA is following up with the Region 4 office about the (a) underenforcement of daily cover requirements at the Stone's Throw Landfill, as recognized in the 2018 closure letter, and (b) ADEM's civil rights compliance more generally, concerns about which EPA identified in a 2017 closure letter of the 2003 complaint. We are eager to hear whether Region 4 will take any action or if there are any next steps that residents of the Ashurst Bar/Smith Community can take to address ADEM's failure to enforce permit provisions. As the 2018 closure letter noted, this failure has adverse impacts on the community.
