I rearranged all of your slides randomly just to make things interesting tomorrow☺ Well, actually, I moved mine to the end of the deck as I am thinking we will have questions on Wolbachia and I'll only present on the Oxitec issue if time permits. We can make that call toward the end of Shannon's portion.

Thanks again for putting this together! Reminder, we may have State partners listening in if that alters anything you might say (e.g., any snide comments about state or Federal entities).
