Subject: RE: Roulette and Catalyst

Hi Barb,

We received comments from the Seneca Nation regarding the Roulette permit. The comments that they included were pretty generic and not really specific to the Roulette project – they basically inquired whether a NHPA review was completed or not.

For Catalyst, we have not received any comments from the Nation. I reached out to Cliff Redeye to get a little more information about what they would expect to have seen completed under an archaeological survey. During our consultation kickoff meeting a couple of weeks ago, Joe
Stahlman mentioned that for projects of this nature, an archaeological review of the surrounding area is done and I just wanted to see how involved those investigations were. However, I have not heard back from Cliff or Joe.

Subject: Roulette and Catalyst

Good morning Kevin,
I was just speaking with he Tribal Historic Preservation Officer for the Seneca Nation Indians. He said he provided some comments to the Nation as part of his NHPA review for the projects. Did we receive any comments from them yet? They still may be working on them internally?
Thanks, Barb
