Rich just told me that Illeana didn't want the regions to send out stuff like this. It was my fault. I didn't know.

A CDC-INFO inquiry has been received from a resident who is concerned about the health effects of toxic fumes from the AMES fire in West Virginia. Can your office develop a draft response for approval? See details below.

From Resident:

I am a resident of the community in West Virginia experiencing the toxic fumes of the AMES fire. The County Commissioner stated at one of the meetings that the town had run out of money to put the fire out. I am concerned about the possible chemicals that are possibly burning and/or being released. I got a list from the Washington County Sheriff's Department of potential chemicals: (PVC,PTFE,Maleic Anhydride,Styrene, Fiberglass,Nylon, Carbon Black,Titanium Dioxide and TLB) that are potentially burning and/or being possibly being released. Many locals are experiencing headaches and nausea. The city is saying the fire may be around for another week . I am concerned about the health effects of breathing in all these toxic chemicals for such a prolonged period.. I want CDC to be aware of the situation we are experiencing and the potential danger to our health.

Thanks,

Good Morning Carolyn,

I'm in receipt of your email and will work with the DCHI SME's on response.

Enjoy your day!

Loretta

Thank you for your conerns and comments to CDC-INFO regarding the AMES fire.

Your comments have been forwarded to the CDC appropriate division for their information. They will contact you directly if they have questions. Also, we made the edits that you requested concerning your inquiry.

Thank you for contacting CDC-INFO. For more information, please call 1-800-CDC-INFO (800-232-4636), visit www.cdc.gov and click on "Contact CDC-INFO," or go to www.cdc.gov/info. This e-mail was sent from an unmonitored mailbox, and CDC-INFO will not respond to replies sent to this mailbox. If you have questions or comments, please send them via our online form at www.cdc.gov/info.

CDC-INFO is a service of the Centers for Disease Control and Prevention (CDC) and the Agency for Toxic Substances and Disease Registry (ATSDR). This service is provided by Verizon and its subcontractors under the Networx Universal contract to CDC and ATSDR.

Thank you,

R.P.
