Re: Harman Absolute 63 Renewal (Cert # 54-16)

Mr. Sanchez,

The purpose of this letter is a formal request for Renewal of Certification for the:

Hearth and Home Technologies Harman Absolute 63
EPA Certificate Number: 54-16

HHT affirms that the **Harman Absolute 63** continues to be similar in all material respects that would affect emissions to the representative wood heater submitted for testing on which the original certificate of compliance was based. Hearth and Home Technologies is requesting a waiver from renewal certification testing and a five year extension for this certification.

Sincerely

Corie Podschelne
Engineering Manager, Halifax Manufacturing Plant
