I had written some draft charge questions in the spring and will think about how they might be revised as I review these. May be able to start my review tomorrow.

And FYI, Versar reached out about starting the peer review now as the reviewers agree to participate to give them the maximum amount of time to review the materials. I gave them the ok to proceed on a rolling basis.

The only thing we need to provide Versar is the final charge questions.

This gives me some breathing room too... I need to run a couple errands in the early afternoon, plus the bazillion emails to wade through.

Ok. I'll review the materials carefully and provide this feedback before I leave for vacation!

Best,
Dustin

It would be good to have your feedback on whether any of the charge questions to reviewers need adjusted based on seeing the package

Dear Viktor:

I see that our "chloroprene scoping team meeting" that was originally scheduled for 12:00 today (8/2) has been moved to next week (8/10 at 9:00 am). Please note that I will be on vacation all of next week, 8/9-8/13. I responded as "tentative" to the new meeting invitation so that I can keep in on my calendar, but it's unlikely that I'll be able to attend. Please let me know if our CPHEA team will meet in advance of the new "scoping" meeting to discuss initial impressions of the materials submitted by DPE and Ramboll.

Best,
Dustin

RFC 21005 – Chloroprene Scoping Team

I am sorry to have to reschedule but I have had to take unexpected leave.

This is the first Scoping Team meeting for the new RFC regarding Chloroprene submitted by Denka.

Attached are the RFC, supporting documents, and Scoping Team Agenda.

Please contact me if you have any question. Thanks for all you do for Quality!
