Attachments: Chloroprene timeline KT then JJV.docx

Good job. I saved online to sharepoint site (I think) and also attached here. Some touchy issues.

Ex. 5 Deliberative Process (DP)

Would be useful for discussion.

John

Some questions for you...I pulled the content into a word doc. We might want to present in a ppt format after we get the specifics pinned down

---

End of August: End of 30 day public comment period on candidate peer reviewers
Early to mid-September: Reviewers are selected, public meeting date identified, and 60-day peer review starts
Mid- to late October: Public meeting is held within 60-day review period; EPA and Ramboll make joint presentation to review panel
Mid- to late November: Final peer review comments are due and EPA receives final peer review report
End of the year: Based on evaluation of peer review report, EPA will have the information needed to reach a decision on the Request for Reconsideration (RFR). The decision would be whether EPA will update the chloroprene assessment or not.

Jennifer,

Here is our best estimate of timeline for decision making on chloroprene:
