Or we could just send an aerial with a polygon around the cleared site. I will try to get it done this week, and hopefully by Friday at latest

What are your thoughts on still responding with our joint enforcement authority with Corps, etc. per my other email, but then instead of providing any aerials or specific locations, we respond by saying under 308 we have the right of entry to the premises to determine whether there is a violation, and we will be there to inspect the relevant land areas as we determine them to be on October 15 and 16.
