Subject: Re: July 19 CAG meeting

Hello Lynn,
Thank you for the information, and yes, it would be good to have the VI investigation update on the agenda.
It would also be good to have an agenda item focused on Area 40 and both the sampling and administration efforts, including CEQA issues, going on there.
Daewon mentioned whether having an additional update from Chris on the changes with AJ would be valuable; I think it would be.
I'm hoping to get the agenda to Tammy tomorrow morning (Wednesday). If you can let me know whether Chris can provide these agenda items, that would be great. If you can't reach him before tomorrow morning, please let me know so that I can let Tammy know to send a meeting reminder without the agenda.
Thank you!
Janis
