Subject: Agenda 4-25-22 Weekly EtO Outreach Planning Meeting

All,

Here is my proposed agenda 4-25-22. Please suggest any additions.

- OAR and OAQPS still owe us a few products to help with our outreach such as the gradient maps and outreach materials.
- Mayor and health dept meetings
- May 5th there will be a webinar for States that will go over the high level basics of the detailing outreach efforts, explaining risk, and sharing maps. This meeting will be socialized from the Office of Congressional and Intergovernmental Relations (OCIR); however, they will need our input on the best contacts. I have a list of contacts for each state of who is involved in the outreach project, so I will share when asked.
- May 12th there will be a more in depth, technical webinar that will discuss how calculations and modelling were done for the rulemaking as well as a typical sterilization process will be shown. This meeting is supposed to be more in depth and give better details than what the Regions have received from OAR and OAQPS. It will be interesting to attend this meeting.
- June 7th (roughly) is when they are planning a National Public Webinar. There are still a lot of details that need to be worked out for this meeting. For instance, the scope of the meeting is still in discussion. We will need to be a part of the sharing/inviting for this meeting. The idea is to have our meeting planned and share this webinar at the same time as our invites are sent out.

Thanks,

Kerry A. Hicks, PMP
