Subject: Follow-up from EPA on small business panel / paint strippers

Hi Dan -

Thank you for taking the time to talk to me earlier today! As I mentioned, we are seeking representatives from small businesses to provide information and advice as we develop a proposed regulation on methylene chloride and NMP in paint and coating removal. You would be part of a group of small business representatives that will advise a panel of federal officials from the Small Business Administration (SBA), the Office of Management and Budget (OMB), and EPA.

Small Entity Representatives (SERs) will be selected by the SBAR Panel to provide comments on behalf of their company, community, or organization and advise the panel on the potential impacts of the proposed rule on small entities. SERs like you provide advice and recommendations to the panel. The SERs participate in consultations with the SBAR Panel via telephone, webinar, or in person in one or two meetings and are given an opportunity to submit written comments to the Panel. We plan to have these meetings during the spring and will send notice in advance.

More about the Small Business Advocacy Review process: http://www.epa.gov/reg-flex/frequent-questions-small-entities

Please feel free to contact me or Joel (cc'd) at any time if you have any questions.

Thank you!
