From: Morris, Jeff
Location: RRB- HORIZON ROOM
Importance: Normal
Subject: PRE-PRIORIZATION PUBLIC MEETING w/Agenda
Start Date/Time: Mon 12/11/2017 1:30:00 PM
End Date/Time: Mon 12/11/2017 10:00:00 PM
00 - Background and Principles FINAL.PPTX
01 - TSCA Work Plan Chemicals overview FINAL.PPTX
Session 1 - Workplan as a Tool FINAL.PPTX
Session 2b - Canada CMP FINAL.PPTX
Session 3 - SCIL FINAL.PPTX
Session 4 - ICP Based on Functional Category Use and Exp FINAL.PPTX
Session 5 - Functional Category Approach FINAL.PPTX
Session 6 - Systemmatic Integration FINAL.PPTX

Agenda for 12-11-17 Pre-prioritization Public Meeting.pdf

EPA is holding two meetings in December to discuss ongoing implementation activities under the Frank R. Lautenberg Chemical Safety Act, which amended Toxic Substances Control Act (TSCA). This follows up on Administrator Scott Pruitt's pledge for greater transparency and continued stakeholder engagement as the Agency implements provisions of the amended TSCA.

December 6, 2017 Public Meeting on New Chemicals: The first meeting is to update and engage with the public on the Agency's progress in implementing changes to the New Chemicals Review Program as a result of the 2016 amendments to TSCA, including discussion of EPA's New Chemicals Decision-Making Framework. EPA will describe its review process for new chemicals under the amended statute, and interested parties will have the opportunity to provide input on their experiences with the New Chemicals Review Program since the statute was amended and to ask questions. In addition, EPA will accept questions from the public in advance of the meeting, and will respond to these questions at the meeting as time allows. To register to attend, submit questions, and learn more: https://www.epa.gov/assessing-and-managing-chemicals-under-tsca/meetings-and-webinars-amended-toxic-substances-control.

The meeting will be held December 6, 2017, 9:00 a.m. to 5:00 p.m. at the Ronald Reagan Building and International Trade Center, Horizon Ballroom, 1300 Pennsylvania Avenue, N.W., Washington, DC 20004.

December 11 Public Meeting on Approaches for Identifying Potential Candidates for Prioritization for Risk Evaluation: The second meeting will focus on possible approaches for identifying potential candidate chemicals for EPA's prioritization process under TSCA. As amended, TSCA required that EPA establish processes for prioritizing and evaluating risks from existing chemicals. EPA will describe and take comment on a number of possible approaches that could guide the Agency in the identification of potential candidate chemicals for prioritization. In addition, EPA will accept questions from the public in advance of the meeting, and will respond to these questions at the

meeting as time allows. To register to attend, submit questions, and learn more: https://www.epa.gov/assessing-and-managing-chemicals-under-tsca/meetings-and-webinars-amended-toxic-substances-control.

The meeting will be held December 11, 2017, 8:30 a.m. to 5:00 p.m. at the Ronald Reagan Building and International Trade Center, Horizon Ballroom, 1300 Pennsylvania Avenue, N.W., Washington, DC 20004.
