**Subject**: RE: FPN E19902 Slauson Tanker Fire - EPA Closure Letter

Thank you for your responsiveness on this project Ben. We will copy you on the final report to the RQWCB regarding the soil removal. When you get a chance, I know that the Client would like to know what the oversight charges from the EPA are on this project.

Thanks again.

**Subject:** FPN E19902 Slauson Tanker Fire - EPA Closure Letter

Dear Slauson Tanker Fire Stakeholders,
Attached please find the EPA Closure Letter indicating that the cleanup at the site has mitigated the threat to surface water to the satisfaction of the EPA OSC. The site remains under LARWQCB jurisdiction for threats to public health and groundwater.

Brett, please continue to cc me on any final reports associated with the soil removal; I do not need to be in the review chain.

I thank you all very much for your time and effort on this project.

Sincerely,

Ben Castellana, Ph.D.
