Subject: Intra-Agency Comments on Next 7 Scopes
Attachments: Comments-Next7_Intra-Agency.xlsx

Stan, Sheila,
Attached are the Intra-Agency Comments on the Next 7 Scopes. I've also placed everything in this folder by program.

If you could, take a look and give us a sense of what our next steps on these should be – there are not a lot of cross-cutting issues identified that we already didn't know about. Most of the issues seem to be document-specific fixes.

We are still waiting for Formaldehyde from OGC, but other than that, I think we have everything: OCHP, OW, OLEM, OAR, OPP, OP.

Ross
