Thanks Collin, great writeup. I have some comments, questions, suggestions, etc – see attached.

The Tuesday meeting has 30 minutes for cume/agg team to discuss team progress and 30 minutes for the byproducts team, so not sure that is the time to discuss this document specifically – but also not sure it is needed for the whole ECRAD management team to engage on this, though there will be interest.

If you are ready to consult with ECRMD, I suggest you move forward on that – getting their input is I think critical before we brief Mark, because that will be the first question: how can this CRA be used for RM?

We can look for a future time to brief the ECRAD managers when we have a less packed agenda...

Thanks for taking this on. Best regards, Andy

Afternoon Andy,

Can we get some time on the Tuesday management meeting to talk about the document that Tony and Maiko have put together? Then follow-up with ECRMD after you all have input.

It is truly impressive work Outline of Cumulative Approach.docx
