Subject: For Maureen info: clean draft CRA document AND RAF roster
Attachments: CRA Guidelines Final RAF Review11-10-21.docx

Hello Maureen. Sabrina, Carolina and Lawrence provided a clean version of the Cumulative Risk Assessment document. To state what you already know: This is the version that includes revisions to address peer review comments and was sent to internal EPA reviewers; it doesn't include or address internal EPA review comments.

Also, you asked for the RAF Roster and the team has provided the roster with their term dates below.

On a different but somewhat related topic, we have a new draft Vision document for Participatory Science that we'll send to you all soon, and I'll pull out the PS definition for you in a separate email.

6 month extension

Ecological Oversight Committee		
Member	**Office**	**Term Exp.**
