Hi Sue,
I finally dug up the phthalate 2011-2012 Agency review drafts, if the SSCs would like to add these BMRs to the BMR database. Let me know if you have any questions.

-Erin

Thanks so much, Erin. And yes, any one of the SSCs could enter the additional information since they all worked on the project. Feel free to forward to me (if that's ok), and I can ask the SSCs to make the additions along with other edits from your WG and others. I probably won't get to this until 2-3 weeks from now since I'll be on leave next week and the week after. So no worries if you don't hear back from me right away.
Sue

Subject: Comments from DART-NTX on BMR database

Hi Sue,
Here are the compiled comments from the DART-NTX workgroup on the BMR database. Let us know if you have any questions!

We had talked about adding BMRs from the phthalates assessments to the database. The phthalate team indicated that BMRs from the 2011 Agency review drafts would be appropriate to add, but the biologically-based BMRs developed by

Todd/Sue Euling won't be ready to share until their manuscript is published later this year. If you agree BMRs from the Agency review drafts would be useful to have in the database, could we get SSCs to add them?

Thanks,
Erin
