Attachments: Letter to Alpha Analytical 210112.docx

Good morning Kan
We sent split samples to Alpha last month. Can you check to see if they analyzed them? And if yes, can they share the results with us?
Thanks
Thuy

Subject: More samples

Good morning Jim,

I shipped one box of samples to you yesterday by U.S. postal service. These samples are related to the Clarke's Anvil 10+10 products that EPA Region 1 and MA DEP are investigating. We sent you some Anvil 10+10 samples two months ago as well, related to this work. These new samples are container rinsates (about 50 ml of methanol) and are in polypropylene bottles. They are all for PFAS analysis.

Please contact me if you have any questions about the samples.

Thanks,

Yaorong Qian, Ph.D
