Attachments: Anvil sample summary.xlsx

Thuy,

Only trace amount PFAS was found in the Anvil samples. The numbers are in ng/g (ppb) of the samples.

I am still working on it. This is just to give you a glimpse.

Thanks,

Yaorong

Kimberly
Can you give us until 9:40AM or so to respond to this?
We are looking at some numbers from samples that put on the instrument yesterday, and may have some updates
Thanks
Thuy

She wants bullets on the Anvil situation. Here's my quick draft; does this look accurate to you? High level:

Ex. 5 Deliberative Process (DP)
