Subject: EPA comments on Mine Waste Technical Data Summary Report

Dear Mr. Brown,

EPA has completed its review of Atlantic Richfield Company's (ARC) April 23, 2016 Mine Waste Technical Data Summary Report (TDSR), Leviathan Mine Site, Alpine County, California. This work is being performed pursuant to the Administrative Order for Remedial Investigation and Feasibility Study, Leviathan Mine, Alpine County, California (CERCLA Docket No. 2008-18, June 23, 2008).

EPA has completed its review and provides the attached remaining comments and new comments.

On or before December 31, 2017, As part of a draft RI/FS submittal, please fully incorporate these EPA comments and prepare and submit a full complete and final robust Mine Waste Characterization chapter in the RI/FS report, and complete the baseline risk assessment for mine waste.

Please also at the same time, develop the remaining media specific reports (TDSRs) (i.e. surface water, groundwater, sediment/floodplain, and Reference) to be responsive and formated to incorporate all of these same EPA comments. Please ensure delivery of those TDSRs are timed sufficient to allow for submittal of an inclusive *draft* RI/FS by December 31, 2017 and a complete and *final* RI/FS by August 30, 2018.

If you have any questions, please feel free to contact me at (415) 947-4183 or

Deschambault.lynda@epa.gov.

Best Regards,

Lynda Deschambault

Subject: Leviathan Mine - Mine Waste Technical Data Summary Report

Lynda,

On behalf of Atlantic Richfield, Amec Foster Wheeler is submitting the Mine Waste Technical Data Summary Report for the Leviathan Mine Site in Alpine County, California. Hardcopy to follow.

Due to the large file size, and varying download speeds of the individual SharePoint Site users, we have posted this document to the SharePoint Site in two different ways:

a) For those with fast internet connections, we have posted the file as one single PDF document. This document is in the file folder labeled "Large File Version" at the end of the file folder name.

b) For those with slower connections, we have segmented the document into file sizes of approximately 15MB or less. This version of the document is in the file folder labeled "Multiple Small File Version."

This document is available for immediate download on the Leviathan Mine SharePoint Site via the following hyperlinks:

This notification is to inform you of folders/documents stored on this site. Click here to directly access the folder where these folders/documents are stored. Click on the links below to access each folder/document individually:

Title	Folder/File
Mine Waste Technical Data Summary Report_160423 Large File Version	Mine Waste Technical Data Summary Report_160423 Large File Version
Mine Waste Technical Data Summary Report_160423 Multiple Small File Version	Mine Waste Technical Data Summary Report_160423 Multiple Small File Version

Please let me know if you have any issues accessing the SharePoint Site.

Should you have any questions or comments please contact Tony Brown at (714) 228-6770 or anthony.brown@bp.com.

Thanks,

Marc
