Hello,

I would like to invite everyone to please save JANAURARY 26TH as the date for this year's Annual Technical Update.

This once a year meeting is a technical summary presentation of the year's site activities and a chance to discuss next steps and future plans.

DRAFT PROPOSED AGENDA will be send shortly. We will provide an overview of treatment activities performed this year and a review of progress on the Remedial Investigation and Feasibility Study (RI/FS). We'll also look forward to the coming year(s) and discuss the superfund process and our goals for a timeline and a final remedy for the site.
