Colleagues

Thank you so much for the call today. I know I said I would email all that were in the meeting, but now that I hit reply all there are a LOT of names there. So I am going to send the attached documents just to this list hoping that it hits the main managers and staff. If you think there are others in your teams that could benefit from/need to see these documents, please do share with them. However, these are obviously all deliberative and, in the case of the PPT, have not even yet been shared with our incoming political appointees. Therefore I am asking for these not to be broadly shared/disseminated.

1. OCFO Version EJ Priorities Briefing – this PPT has a short version of ten ideas we are framing up for Adm. Regan on EJ as well as a quick analysis of where within the new EOs the EJ Program can or should play.
2. 100 Day EJ Agenda – same as the ten ideas in the above PPT but with a little more detail/thinking. This is still very much draft, but at least shows where and how we are thinking about several critical areas.
3. EPA EJ Action Plan Framework – a document developed by the EJ Program over the past 2+ years. This document has been briefed across the entire agency, but was never put into gear by the previous administration. Regardless, we still believe it provides a good starting framework to quickly and meaningfully begin to guide the crafting of EJ commitments across the agency that can be brought together to form the basis of an EJ strategic plan.
4. EPA EJ Program Deliberative Budget Proposal – at the urging of DAAs/DRAs, we crafted this starting point to think about what a real budget for EJ at EPA would look like. This is just to support the core work – inside and outside of EPA – of doing EJ. It does not, obviously, contemplate what the impact of doing EJ would look like within existing program areas of the budget as Joe spoke to on our call today.

At Maria's urging, we will begin to craft options for an FY21 Op Plan for where resources can go should we receive a massive bump from a Biden stimulus bill. As things currently stand, we are able to accommodate expenditure of the already passed FY21 budget for EJ.

I look forward to hear back from you all on your reaction to these documents and suggestion for next conversations or work pieces to further sketch out budget and strategic planning activities for the next handful of months.

Best,

Matthew
