Subject: Current transformers for WaterGen electric meter?

Hi Gary,

The Leviton 2N208-11 you specified is the meter only. Do we also need to purchase current transformers for the lines, or is this something you have around?

http://www.leviton.com/en/products/2n208-11
https://www.amazon.com/Leviton-CDE01-311-Sub-Metering-Current-Transformers/dp/B004KRVAZ8/

Let me know,
Michael
