Hi Amanda,

Tom is available for a call next Tuesday 1-2pm, Wednesday 1pm-3pm or Thursday 11am-2pm. Let me know what time works for you.

If you have a date set for the webinar, I can get that on his calendar too.

Thanks,

Heather Burdick

Hi Amanda,

Tom and I spoke this morning and he's interested and available to assist. Pls include Heather Burdick on your emails. She can help schedule a time to talk w/ Tom.

Best,

Erica

Hi Tom,

Do you have any time this week or next to discuss your thoughts for the second OA tech assistance webinar?

Thanks,

Amanda Santoni

Subject: Feedback Requested- Ocean Acidification Monitoring NEP Tech Assistance Webinar #2

Hello Tom,

As you may know, Brian Rappoli has retired from EPA, and I wanted to introduce myself as the new contact for ocean acidification at EPA HQ.

I want to thank you for attending and presenting with Guangyu Wang at the last Technical Assistance Webinar for OA monitoring in NEPs. My office is planning to hold a follow-up webinar, and we would be honored if you could join us again. To ensure the webinar will be beneficial, I would like to solicit input from you and other participants on the potential content and time frame.

Some potential topics for the webinar on which I would like feedback are:

- The value to your program of a presentation on benchmark sampling as it relates to alkalinity.
- A continuation of lessons learned from OA monitoring at the NEPs and ways to improve the collection of this data.
- A more detailed assessment and synthesis of data collected thus far and what this means in a regional or local context.
- How individual NEPs are applying the information to coastal management
- How NEPs are incorporating data into CCMPs
- Data archiving/sharing
- Other topics that may be of specific interest to your program

I would greatly appreciate your thoughts on both webinar content and time frame. Please let me know if you have a few minutes for a phone discussion before January 12th.

Thank you and regards,

Amanda Santoni
