Subject: CEC

Hi Sarah,

There is $2,600 remaining in carryover funding that is immediately available for planning the CEC.

The FY 18 budget includes a request for $19,000 for the CEC, that we expect the final bill to fully fund once Congress passes a final spending bill. The current continuing resolution (CR) expires on 2/8/18- at that time, Congress must pass a final bill or another CR. If a final bill is passed, the full $19,000 will be available. If not, the Office of Budget will work with appropriations staff to request an exception in the next CR for this funding, so that it is available before passage of the final bill.

Please let me know if you have any questions. Thank you!

Holly
