Also, if you have any of the other forms electronically and can email me that would also be appreciated. I'm thinking about cover letter(s), application form, certification with respect to citation of data, etc. Anything you haven't already emailed Lindsay or me.

Yes, an updated data matrix for each product would be most appreciated. Thank you!

Hello Heather,

I have updated the transmittal document with the MIRD numbers and the guideline numbers. Did you also say you needed me to add these MIRD numbers to our data matrix? If so, just let me know and I will send you both the updated public and private versions of this document.

Thanks,
Jessica

Jessica: sorry for the duplicate email. Can you also please email me a transmittal document that lists out the corresponding guideline numbers for each of the new studies that you submitted? Do you have a copy of the MRIDs you received? I may just give you a call.

Thanks Jessica. I do want to alert you to the fact while we will try to make the PRIA date on this action it may need to be delayed. But we can discuss that further down the line once we see where we are. This action was submitted in hard copy form in December and was in the queue to be completely scanned to make it

electronic. However, that did not happen due to the shutdown. So we are a little behind. In the future is there any way that Eastman Chemical Company would be willing to use the on line portal for submissions?

Also when you have a moment can you also email me the two labels in PDF format? We do all of our reviews electronically now.

Thanks!
Heather

Hello Heather,

I have attached the two documents you requested. I look forward to working with you on this action. Please let me know if need anything from me.

Regards,
Jessica

Hi Jessica: thanks for the discussion this morning. I'll wait to hear from you regarding the respect to citation of data form and the waiver rationale.
Thanks!
Heather
