Hi, Cinda.

I have been assigned the import tolerance for chlormequat chloride, so if you have questions about that action at any time, feel free to contact me and/or Tony Kish. Right now, we're working on getting all of the documents scanned in before we can transmit this action for review by the Health Effects Division. I'll get back to you to let you know about any "show-stopper" deficiencies by 8 November 2016.

In the meantime, could you provide a Microsoft Word copy of the Notice of Filing for this action? I will need that to add the petition number prior to posting it to regulations.gov.

Thanks,
Lindsay
