Kerry,

The data blocks ore not currently showing up on the link. They worked yesterday, but not this morning.

Justin Mayer

Subject: EPA OSC web site, viewer with monitoring data

A Map on the OSC web site for Red River Supply fire is available for viewing GIS information

go to the site above and then click on "map" where it says "A Map is available for viewing GIS information".
Click on the black diagonal monitoring stations and you can access the air data through the link. The data is usually after the photos---just click through.

If any questions, please call myself or John Lucotch
