---

Hi Renee,

Back in September 2020 I completed an environmental review for predevelopment activities at 50 E. Rogers Rd. This allows Longmont and/or Habitat St. Vrain to perform non-construction related activities prior to the completion of the Environmental Assessment. I sent a follow-up email to Molly to see if she had any updates and whether or not I should begin the EA for this project. I'm going to put this on my workplan as a placeholder just in case this needs to be completed this year.

Thanks,

Shelly Conley

External Sender

FYI. That ball may be in your court on this project. Looks like the funding going for their Rogers Road project instead of the one that they had applied for originally.
